

Geita Gold Mine values

Our safety values

Around here....

- We adhere to the site driving rules and the observing of all traffic signs
- We evaluate and assess risk and hazardous situation before we execute the tasks
- The community must be better off for our having been there
- We have respect for the safety of each other
- We are adequately trained and informed on safety issues
- Everyone is safety conscious and we take responsibility for our safety
- We have open and honest communication
- We are pro-active
- We wear the right protective equipment in the proper way
- We have a positive attitude about ourselves, each other and the company
- We ensure sound environmental practice in our work space
- We observe safety regulations as if by second nature, and we do not have to be reminded or forced to follow the rules.
