⁽¹⁾ Attributable production at Moab Khotsong prior to commercial production in 2006 was capitalised against pre-production costs.

⁽²⁾ The yields of TauTona, Brasil Mineração, Serra Grande and Obuasi represent underground operations.

⁽³⁾ The yields of Sunrise Dam, Iduapriem and Siguiiri represent open-pit operations.

⁽⁴⁾ The minority shareholdings of the International Finance Corporation (10%) and Government of Ghana (5%) were acquired effective 1 September 2007 and Iduapriem is now fully owned by AngloGold Ashanti.

⁽⁵⁾ The yield of Bibiani represents surface and dump reclamation in 2006 and open-pit operations in 2005. Bibiani was sold effective 1 December 2006.

⁽⁶⁾ The yield of Yatela and the Cripple Creek & Victor Joint Venture reflects recoverable gold placed/tonnes placed.
